

HUTCHINSON FAMILY TREE

The following Hutchinson family tree information is from a microfilm in the Derby Local Studies Library – a listing of pedigrees by Thomas Norris Ince (1799-1860). It was transcribed by (and is the copyright of) John Palmer, Dorset, England. His transcription was made with the proofing assistance of Sonia Addis-Smith, duly acknowledged on the excellent Wirksworth Parish Records website at <http://www.wirksworth.org.uk/frontpag.htm>

For ease of reference here, and for the relevance to Rev. James Hutchinson, I have taken the liberty of adjusting the original layout somewhat, filling out a few abbreviations, adding occasional punctuation and filling out the family of Rev James Hutchinson. For the original content and formatting, please consult John Palmer's original transcription at <http://www.wirksworth.org.uk/frontpag.htm> - about a third of the way down the web-page.
